PROFILE

Computer Engineering Diploma graduate with strong foundations in programming, web development and software engineering. Passionate about building real-world applications, learning new technologies and solving practical problems. Seeking an opportunity to begin my career in software development while growing through industry training and challenging projects.

EDUCATION

VES Polytechnic, Mumbai

2023–2026

Diploma in Computer Engineering – 89%

PROJECTS

College Connect (Featured)

React.js • JavaScript • Tailwind CSS • React Router

Live: <https://college-connectttt.netlify.app/>

Repo: <https://github.com/pranet08/college-connect>

- Built a modern student platform that centralizes announcements, academic resources, campus events and student interactions.
- Integrated AI-powered chatbot assistance and AI poster generation for college events.
- Built an integrated campus event management system where students can explore upcoming events, generate AI-powered promotional posters, and access event information through a centralized interface.
- Developed responsive dashboards with reusable React components and intuitive navigation.
- Designed mobile-first interfaces with modern UI principles and consistent user experience.
- Structured the application with scalable components for maintainability and future expansion.
- Optimized layouts for desktop, tablet and mobile devices.

SpendWise – Personal Finance Management Web Application

React.js • JavaScript • Tailwind CSS • Recharts • LocalStorage

Live: <https://spend-wise-kappa-lac.vercel.app/>

Repo: <https://github.com/pranet08/SpendWise>

- Built a finance dashboard featuring income and expense management, financial score, monthly summaries and budget monitoring.
- Implemented transaction CRUD, search, category filters, recurring transactions and persistent LocalStorage.
- Developed Analytics with interactive Pie, Bar and Line charts for spending trends and category insights.
- Created Savings Tracker supporting multiple savings goals with progress visualization.
- Designed a gamified Money Challenges module including challenges, streaks, achievements and rewards.
- Added CSV export, PDF report generation, dark/light mode, notifications and a responsive SaaS-inspired interface.

TECHNICAL SKILLS

Languages	JavaScript, HTML5, CSS3, C, C++, Java
Frontend	React.js, React Router DOM, Tailwind CSS
Libraries	Recharts, React Icons, Framer Motion
Tools	Git, GitHub, VS Code, Vite, Chrome DevTools
Concepts	Data Structures (Basics), SQL (Basics), Responsive Design, Component-Based Architecture, CRUD, LocalStorage
